EDUCATION

University of Padua
MSc Cybersecurity
In progress

University of Florence
BSc Computer Engineering
2024/2025

Liceo Francesco Redi
High School Diploma
2019/2020

SKILLS

- Python
- C++
- HTML, CSS & JavaScript
- MATLAB
- LaTeX
- Linux / CLI
- AI harness (Claude Code)

LANGUAGE

- Italian (Native)
- English (B2)

ABOUT ME

Cybersecurity Master's student at the University of Padua with a Bachelor's in Computer Engineering. Hands-on experience in network traffic analysis, automation scripting and ML-based anomaly detection.

EXPERIENCE

Steward & Technician Assistant
BeaAgency, One Group, TLBank, Vits, Velvet — On-call
Steward at events for several agencies, also supporting the technical crew with setup and equipment.

Private Tutor
Centro Studi 10elode — On-call
Private lessons for students, helping them understand course material and prepare for tests and exams.

E-commerce Web Developer
K2 Ski Snow Service — Present
Designing and developing the store's e-commerce website, from the product catalog to online orders and payments.

SELECTED PROJECTS

More projects on GitHub

Anomaly Detection
Detects faulty water pumps from their sound
Stack: Python, Jupyter, pytest
GitHub: JacopoSimonini/Anomaly_Detection

RIS-Drone Simulation
Drone-transmitter links via RIS at 10.7 GHz
Stack: MATLAB, QuaDRiGa
GitHub: JacopoSimonini/simulate_drone
