EDUCATION

University of Padua
MSc Cybersecurity
In progress

University of Florence
BSc Computer Engineering
2024/2025

Liceo Francesco Redi
High School Diploma
2019/2020

SKILLS

- Python
- C++
- HTML, CSS & JavaScript
- MATLAB
- LaTeX
- Linux / CLI
- Claude Code (AI coding agents)

LANGUAGE

- Italian (Native)
- English (B2)

ABOUT ME

Cybersecurity Master's student at the University of Padua with a Bachelor's in Computer Engineering. Curious about how systems work and how to protect them, I enjoy learning new technologies through university projects and hands-on practice. Reliable, quick to learn and used to teamwork, seeking an internship in security.

EXPERIENCE

E-commerce Web Developer
K2 Ski Snow Service — Present
Designing and developing the store's e-commerce website, from the product catalog to online orders and payments.

Private Tutor
Centro Studi 10elode — On-call
Private lessons for students, helping them understand course material and prepare for tests and exams.

Steward & Technician Assistant
BeaAgency, One Group, TLBank, Vits, Velvet — On-call
Steward at events for several agencies, also supporting the technical crew with setup and equipment.

SELECTED PROJECTS

More projects on GitHub

Anomaly Detection

Detects faulty water pumps from their sound

Stack: Python, Jupyter, pytest

GitHub: JacopoSimonini/Anomaly_Detection

RIS-Drone Simulation

Drone-transmitter links via RIS at 10.7 GHz

Stack: MATLAB, QuaDRiGa

GitHub: JacopoSimonini/simulate_drone
